

## ITCHING

Burning Skin-Tortures Speedily Cured by Cuticura.

A warm bath with Cuticura Soap and a single application of Cuticura Ointment, the great Skin Cure, will afford immediate relief, permit rest and sleep, and point to a speedy cure of the most distressing forms of itching, including humors, eczema, tetter, rashes, itching, and irritations of infants, children, and adults, when all other remedies, and even physicians, fail. Cuticura Soap and Cuticura Ointment are also priceless for preserving, purifying, and beautifying the skin, scalp, hair, and hands, for shaving and shaving, and for all the purposes of the toilet, bath, and nursing. Sold throughout the world.

AGAINST 8.30 SESSION

AT HIGH SCHOOL

Town Committee Votes School Must Open at 9 A. M.—\$220 Appropriated for Library.

(Special to The Bulletin.)

Willimantic, March 9.—The town school committee at its regular monthly meeting Wednesday evening, voted that the Windham street school would not be required to make up the time lost by the closing of the school on account of the school fever. It was decided to have the trustee officer make reports to the principal of all complaints that are investigated by him. It was voted that the school be in session from 9 a. m. to 2 p. m., and that the proposed new programme whereby the school was to open at 8:30 and close at 1:30, was not adopted. An appropriation of \$220 was made for the school library. The proposition to purchase a rosette for the school was referred to the committee on supplies for a report.

Chairman Dr. F. E. Guild and Secretary Mrs. K. J. Spalding were appointed a committee to arrange for the commencement exercises.

Discussing City Health. The Willimantic City Medical society held a lengthy discussion on the city health at an adjourned meeting of the society on Wednesday evening.

Dr. Robinson Will Remain at Noroton Soldiers' Home.

Hartford, Conn., March 9.—Gov. Frank B. Weeks announced today that arrangements had been made whereby Dr. Robinson, medical officer at the soldiers' home at Noroton, would retain his position. There has been some talk in the past of his position being filled by a younger man.

Three Times the Value.

After facing a property loss of over \$85,000,000, the citizens of Baltimore have made up the loss many times, said the Baltimore News on the sixth anniversary of the great fire. "The place of the destroyed structures, which were valued at approximately \$12,000,000, other buildings valued at nearly \$40,000,000 have been erected. Of the 1243 lots which were bare by the flames, not more than two score still remain open, and for the majority of the small number other buildings are now planned. Many of the lots on which once stood buildings have been acquired by the city and converted into wide street ways, and on the majority of the remainder structures which surpass their predecessors in every way have gone up during the last six years."

## CONSTIPATION

MAY BE PERMANENTLY OVERCOME BY PROPER PERSONAL EFFORTS WITH THE ASSISTANCE OF THE ONE TRULY BENEFICIAL LAXATIVE—SYRUP OF FIGS AND ELIXIR OF SENNA, WHICH ENABLES ONE TO FORM REGULAR HABITS DAILY, SO THAT ASSISTANCE TO NATURE MAY BE GRADUALLY DISPENSED WITH WHEN NO LONGER NEEDED, AS THE BEST OF REMEDIES, WHEN REQUIRED, ARE TO ASSIST NATURE AND NOT TO SUPPLANT THE NATURAL FUNCTIONS, WHICH MUST DEPEND ULTIMATELY UPON PROPER NOURISHMENT, PROPER EFFORTS AND RIGHT LIVING GENERALLY.

T. F. BURNS, Heating and Plumbing, 92 Franklin Street.

S. F. GIBSON

Tin and Sheet Metal Worker. Agent for Richardson and Boynton Furnaces. 55 West Main Street, Norwich, Conn.

## Do It Now

Have that old-fashioned, unsanitary plumbing replaced by new and modern open plumbing. It will repay you to the increase of health and saving of doctor's bills. Overhauling and re-setting thoroughly done. Let me give you a figure for replacing all the old plumbing with the modern kind that will keep out the sewer gas. The work will be first-class and the price reasonable.

J. F. TOMPKINS,

aug10 57 West Main Street.

We do all Watch and Clock Work promptly and at the right prices.

WM. FRISWELL, 27 Franklin St.

## Trial of Kitchman and Mitchell

Efforts to Establish Fact that Kulvinskis was Not in Condition to Make Correct Dying Statement.

New Haven, Conn., March 9.—After devoting the entire morning session of today's trial of Sophie Kritchman and Joe Mitchell to the direct and cross examination of Mrs. Nellie Antonellis, a half sister of the accused girl, Mr. Kennedy of the Kritchman defense devoted the afternoon to the establishing of the fact that the dead man was not in a proper mental condition to make a correct dying statement. Mr. Kennedy was met by objection after objection on the part of the state, and it was not until late in the afternoon that he was able to secure the opinion of Dr. Edwin H. Johnson, medical examiner of Naugatuck, as to Kulvinskis' condition when found lying in the woods on Saturday, Sept. 12. Dr. Johnson said that in his opinion that owing to the amount of blood lost and the attending symptoms that it was almost impossible for the dying man to make an accurate statement or at least the accuracy of the statement would be impaired. The doctor could not tell whether Kulvinskis was delirious or not from the fact that he was talking in a foreign language which he did not understand.

Deputy Coroner W. D. Makepeace of Waterbury was the second witness put on by Mr. Kennedy to try and establish the dead man's mental condition. In examining Mr. Makepeace, Mr. Kennedy met with the same strenuous

opposition that characterized his attempts to examine Dr. Johnson. Coroner Makepeace, at the time time Kulvinskis was in the Waterbury hospital, examined him as to who had shot him, and so forth, and at request of Mr. Kennedy read certain questions and answers that were given at that time. Mr. Kellogg objected, but the court ruled that inasmuch as the dying statements had been admitted it was proper for the defense to try and show the mental condition of the man at the time the statements were made. At the conclusion of reading the portions designated by the state to read all of the questions and answers made at that time. During the reading of the questions and answers both Sophie and her mother smiled frequently. Mitchell seemed to be deeply interested and smiled and talked with his counsel.

The last witness of the day, Joseph A. Shunkis, a barber of Union City, qualified as an expert in the Lithuanian language and translated the writing on one side of the blood-stained note which Anton, brother of the dead man, has testified to as having been called to his attention by Bronislaw as he lay dying in the woods on Saturday afternoon. The translation follows: "Sophie Kritchman, looks like for death after dinner or afternoon, my your bronislaw shoot my brother, I your mother asked frequently, I your R. A. He was still being examined when court adjourned for the day.

## THE RHODE ISLAND OYSTER INDUSTRY THREATENED

With Annihilation—Greatly Polluted Waters the Cause.

Providence, R. I., March 9.—The oyster industry in this state is threatened with annihilation as the result of the greatly polluted condition of the waters over large portions of the best oyster beds of the state. The findings of the experts who made examinations here a short time ago have not been made public, but they are understood to have been of a character to fill the oyster growers with the gravest apprehension for the survival of their business. The Rhode Island Oyster Growers' association has filed a formal complaint with the commissioners of shell fisheries, calling upon the commission to enforce laws which prohibit the pollution of these waters. Several municipalities and many private concerns have been using bay as a dumping ground for sewage. The shellfish commissioners are preparing to take drastic steps to prevent further pollution.

## PROBATE COURT ROOM

LOOKED LIKE AN ARSENAL

Rifles, Revolvers and Shotguns in Front of Mrs. Glover.

Cambridge, Mass., March 9.—The probate court room where the Glover will case is being threshed out, looked like a small arsenal today. Half a dozen rifles and shotguns and a couple of revolvers were laid in front of Mrs. Lillian M. Glover, but the sight of so many deadly weapons was not shown in her testimony in support of the claim that she knew very little of the murder of her husband. She admitted that she had shot a shot while on a hunting trip to Maine with her husband, but said that was the only one she had handled a weapon. Many pictures of herself and her husband taken together were shown in support of the claim that their relations were of the pleasantest character.

## CHARGED WITH STEALING

\$60,000 WORTH DIAMONDS

Attempt to Sell Stolen Gems to Chicago Diamond Dealer.

Chicago, March 9.—Charles Rosenthal and Jay Harris, who were arrested last night on a charge of selling alleged stolen diamonds to Paul M. Korshak, a local diamond dealer, were formally today charged with stealing \$60,000 in diamonds from Mrs. J. W. Jenkins of New York. The men will be arraigned tomorrow. No word has been received from New York regarding the suspects, but it is expected that Mrs. Jenkins will come to Chicago to identify the diamonds. Rosenthal and Harris were again questioned by the police today, but neither would tell where they received the precious stones found in their possession.

## POLITICAL LEADERS AT FUNERAL

OF EX-SENATOR PLATT.

Views Exchanged on the Political Situation at Albany.

Owego, N. Y., March 9.—Political leaders and legislators, national and state, who were here today in attendance on the funeral of former United States Senator Thomas C. Platt, found an opportunity for an exchange of views on the political situation at Albany. The Alida-Conger bribery scandal and the senate leadership contest were quietly discussed by ex-Governor Odell, Chairman Woodruff of the republican state committee, Representative John W. Dwight, the republican whip in the lower house at Washington, Representative J. Sloat Fassett, and other republican legislators from Washington and Albany.

## The Cost of Sickness.

According to Prof. Jeremiah W. Jenks of Cornell university, the cost of sickness to the United States is \$1,000,000,000 annually. In this is included only such sickness as incapacitates people from working and requires medical attendance. Minor ailments not requiring a physician's services would add \$250,000,000 more. Professor Jenks gets at it by figuring the loss through sickness on the average by every member of the population to be 13 days every year, and asserts that by proper care probably nine-tenths of this loss could be saved. To prevent this sickness waste would of course require sanitary housing, proper exercise and abolition of various excesses and abuses. The contemplation of the colossal figures suggests, none the less, that it is worth while to try to do something to put the doctor out of business. It might be far more satisfactory, and much more economical, to introduce the system credited to the Chinese for the patients to pay their physician for the time they are well. To put every graduate in medicine on a liberal pension would be a paying investment, even if only half of the \$1,250,000,000 of the sick cost could be saved.—Omaha Bee.

## A Question.

By the way, how many people in this country could name the vice president of the United States on the spur of the moment?—Birmingham News.

The Modern Compiment. The real compiment nowadays is to say that she is worth her weight in pork chops.—Louisville Courier-Journal.

A London company has spent \$500,000 in advertising in the last 25 years. This great campaign was launched by the expenditure of \$20.

## STRIKE OF PAPER MAKERS

ARMED DEPUTIES SWORN IN

Riotous Conditions Prevailed Tuesday Night and Yesterday.

New York, March 9.—A. N. Burbank, president of the International Paper company, issued a statement tonight regarding the strike at the company's mills at Corinth, which concludes as follows: "The International Paper company has called upon the sheriff of Saratoga county for protection and has notified him that it will hold the county responsible for any damage to its property. The sheriff has accordingly sworn in armed deputies, but nevertheless riotous conditions prevailed last night and today. Armed men filled the streets. The governor has been called on for assistance, the sheriff having admitted his inability to cope with the situation. "The employees at the company's mills at Glens Falls, without any demands or grievances presented to the company, have been ordered out and at the mill at Niagara Falls a strike of some of the employees is also expected. No attempts have been made to communicate with the officers of the company by the strikers."

## RIOTOUS MOB IN BOGOTA

STONE AMERICAN LEGATION

Not Likely That Any Serious Complications Will Follow.

Washington, March 9.—There is no likelihood that any serious complications between the United States and the government of Colombia will result from the action of a mob in Bogota in stoning the American legation building in that city. State department officials are not inclined to attach any special significance to these acts. They regard them as those of an irresponsible mob. The government of Colombia has already assured the American minister of full protection and the officials here

# A Single Cup Correctly Brewed

Proves the merit and satisfaction there is in Postum. But it is often only half brewed and the result is often unjust condemnation.

There are no "grades" of Postum. Every package is the same. It is the steady boiling, for at least fifteen minutes after boiling begins, that gives a cup of Postum its fine, snappy flavour.

If your first cup of

# POSTUM

Was not satisfactory, the fault was in the brewing—it must be boiled until it is dark and rich—don't attempt to make it as you would make coffee, but remember—

The longer Postum is boiled the better it is!

Well-made Postum served with good cream, has a flavour distinctly its own, and not unlike that of mild, high-grade Java coffee.

The best proof of the value of Postum is found in the clear brain and steady nerves which follow its use as the regular daily beverage in place of coffee or tea.

Postum—made of clean hard wheat (including the bran-coat with its "vital phosphates," grown in the grain)—quickly assists in rebuilding the worn-out body cells, because it contains these valuable elements in liquid form; in fact, it is a very palatable liquid food.

After all arguments, 10 days' trial proves.

## "There's a Reason" for Postum

Postum Cereal Co., Ltd., Battle Creek, Mich.

entertain no doubt that with the means at hand the authorities will speedily put a stop to the riotous demonstrations.

## FUNERAL OF DR. LOUIS KLOPSCH

Editor, Mission Worker, Philanthropist—President Sends Letter of Condolence.

New York, March 9.—Funeral services for Dr. Louis Klopsch, editor of the Christian Herald, philanthropist and mission worker, took place today in the Metropolitan temple, and among the floral offerings was a three-foot wreath of white hyacinths and amilies from President Taft and Mrs. Taft. To the widow President Taft sent this letter of condolence: "The White House, Washington, March 8, 1910. "My Dear Mr. Klopsch: I have not in the newspapers of yesterday that your good husband passed away under the effects of the operation. I have not known him long, but I have known him long enough to know of the good that he has done, the charity that he has encouraged and the gratitude that he is entitled to from the poor and the oppressed. I sincerely hope that the memory of all these things will sustain you in your grief. "Very sincerely yours, "WILLIAM H. TAFT."

President Taft met Dr. Klopsch while on a visit here last December. PULMONARY CASES Must Be Promptly Reported to Meriden Health Officer.

Another new city by-law will probably be enacted at the next meeting of the Meriden common council in relation to pulmonary tuberculosis cases. Councilman Krentzman presented the following resolution to the council on Monday evening and it was referred to the committee on by-laws: "Be it enacted by the court of common council of the city of Meriden: Section 1—When death occurs from pulmonary tuberculosis the health officers shall be notified by the undertaker or person in charge of the body within twelve hours after such death. Section 2—Any person who shall violate or fail to comply with the provisions of the foregoing section shall pay a fine of not less than \$5 nor more than \$50 for the use of the city.

No More "Sick Time" Pay for Hartford Police.

Monday night's meeting of the Hartford police commissioners will go down into history as marking the passing of the system of allowing "sick time" for members of the department. Two bills were approved last night, allowing Policeman James Dunn sixty-seven days half-pay and three days to Traffic Policeman William Fendegast. Unless the board holds a special meeting before March 15 to allow additional half pay to men who are on the sick roll, it would carry their applications into the payroll that will be passed upon after April 1 when the new salary schedule goes into effect, and under it no more sick time can be allowed. The new ordinance allows an appropriation for pay for men who are injured in the performance of their duty, or who have their clothing damaged.

## What We Won't Fight For.

There is dread in the minds of many Americans that war will some day be declared between the United States and Japan. But not because a soldier like Major General J. Franklin Bell says so. The Pacific may be stained with blood. Yet not because the banker Leslie M. Shaw says so. The soldier must think of war constantly. He is employed to fight or to keep himself prepared for fighting. He would be the first always to see war clouds and the first to announce the fact. But since he understands little of what causes war and virtually nothing of the forces within a nation which make war possible, he is almost always premature. The banker looks

## FATHER 80-MOTHER 76

The aged father and mother of a prominent Boston lawyer safely carried through the last two winters by

## Vinol

The son says: "My father and mother owe their present strength and good health to Vinol. During the last two trying winters neither of them had a cold, and were able to walk farther and do more than for years. I think Vinol is perfectly wonderful. It certainly is the greatest blood-making, strengthening tonic for old people I ever heard of."

We want every feeble old person in this town to try Vinol. We will return their money without question if it does not accomplish all we claim for it.

## LETTERS TO THE EDITOR.

Progress.

Mr. Editor: I read with a great deal of pleasure Mr. Tracy's remarks at the board of trade banquet in your paper of February 23. I wish we had more citizens like him. He is my ideal of what a good citizen should be, and has my highest regards from a social and business standpoint. I would that Norwich had more like him. Let us look over the situation. When Rip Van Winkle went to sleep, a time beyond the remembrance of Mr. Tracy. First, let us recall Mr. J. Monroe Huntington, who employed over four hundred men at Thamesville, and they were mechanics, and the sentiment of the long ago was: "If we only had ten more like him in Norwich, we would shake Worcester and Springfield sit up and take notice." Mr. Huntington and the rolling mills had more money paydays than is paid today in all the industries in the city proper except Greenville; and the Richmond Stove company, under the management of the Richmond, employed more than four hundred men. How many members of the board of trade remember the cooper shop across the way from the foundry where the writer watched Cooper Clark re-hoop the pork and beef barrels for Norwich people? I don't know. I have a half again as many men as are employed by the McCrum-Howells Co. today. How many members of the board of trade remember the cooper shop across the way from the foundry where the writer watched Cooper Clark re-hoop the pork and beef barrels for Norwich people? I don't know. I have a half again as many men as are employed by the McCrum-Howells Co. today. How many members of the board of trade remember the cooper shop across the way from the foundry where the writer watched Cooper Clark re-hoop the pork and beef barrels for Norwich people? I don't know. I have a half again as many men as are employed by the McCrum-Howells Co. today.

I was talking about old times with an old timer and he spoke of the cost of our police as compared with the time when Captain Small, Mr. Button and Mr. Tourtellotte and one or two more looked after the safety of property and man after dark. He did not take into consideration that there were only a few that sold rum in those days. Cal. Rawdon, D. P. Coon, Converse, or that the rum sold in those days was pure and made a man at peace with the world; but now with 50 more or less, places selling stuff that takes about ten cents worth to make a man crazy, and requires the work of three or four policemen to land him in a place of safety, if Captain Small, or Button, or any of the others were alive today and were called on to perform the duties, would they call it progress? From the bottom of my heart I believe they would. Now, Mr. Editor, don't you think it would have been better if they had let me sleep on in the beautiful thoughts of the past than to be awakened to the conditions of what is called at the present time progress? WEST SIDER, Norwich, March 9, 1910.

The Dutch pawn shop of Amsterdam, known as Bank van Leening, is under the control of the municipality, and is one of the oldest in the country. Up to 1615 the business was leased by the city to a private company, but as it refused to reduce its interest on pawned articles the city took over the business and has managed it ever since.
